

## Innovation · Solutions · Results

**HDA Technology** has been providing leading-edge medical product development solutions to medical start-ups and major companies since 1983. We bring diverse talents and skills, an extraordinary breadth of interests and decades of experience to every project. We enjoy solving challenging problems -- inventing enabling technologies -- thinking out of the box. We are not your ordinary design firm.

### Product Development

Extensive experience in a variety of areas including:

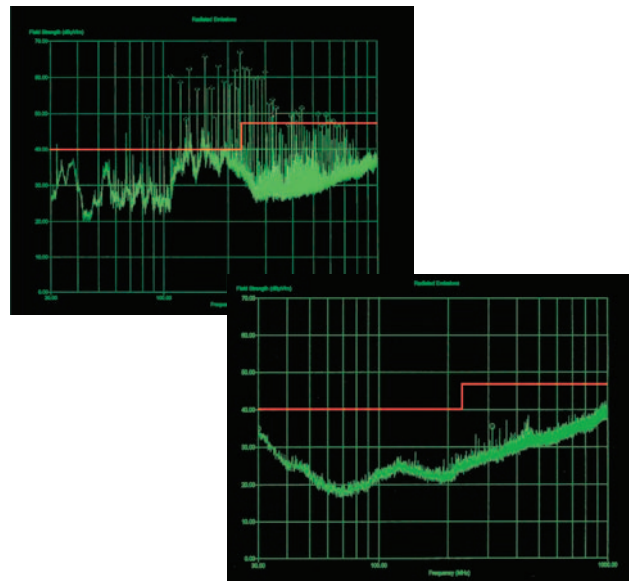

- Point of Care
- Surgical Motion Control
- Electrosurgical Systems
- RF Energy Delivery
- Device Reuse Control
- Counterfeit Prevention

### Quality:

- FDA QSR Design Controls
- ISO 13485 Compliant
- FDA Compliant Manufacturing

**HDA** has the staff, systems, skills and tools to get the job done. We welcome the opportunity to partner with you.

### Compliance Services:

- EMC/EMI Compliance
- ISO 60601
- Production Test Systems
- Software Validation

**HDA** is an Atmel Crypto-RF Development Partner, Bluetooth Design Resource and a Microchip Development Partner.
